

ARIZONA FINANCIAL LITERACY AND ECONOMIC EDUCATION CONFERENCE

Enlighten, Engage, Empower

The Arizona Council on Economic Education ("ACEE") invites you to sponsor the 2024 Arizona Financial Literacy and Economic Education Teacher Conference. As a valued sponsor, your company will receive high profile exposure, and contribute to philanthropic efforts in support of financial literacy, entrepreneurship, and economic education to benefit K-12 teachers and students statewide.

ACEE's conference is a statewide meeting of K-12 educators, affiliated Arizona universities and colleges, Arizona school districts, Federal Reserve partners, and other educational institutions in this field. By empowering teachers, you multiply the impact from one teacher to 150 of their students on average annually.

The conference features a diverse selection of professional development sessions on economic and financial literacy including pedagogy and resources, curriculum strategies for schools/school districts, teaching strategies, assessment and research, new programs and best practices. The conference also features informal opportunities for networking.

Teacher's Experience

"I would like to first thank the amazing opportunity for receiving the scholarship to attend the conference in Phoenix. As a first-year teacher, I was surrounded with a wealth of knowledge and experience that has really provided a lot of promise. Talking with other teachers attending the conference, I feel extremely more confident in the workshops and materials I have received to provide a better experience for my students." -Diego E. Moya, Vista High School, Yuma

"It was an honor to be selected for this scholarship to attend the conference. I teach American Government / Economics to high school seniors who struggle in many ways. Every student at Roadrunner has been diagnosed with an emotional disability. In general, life has not been all that kind to my students. Being able to attend this conference to learn / bring back engaging lessons, particularly those that are engaging and/or are technologically engaging means a lot to me and my students alike. Without your generosity I would not have been able to attend, and I cannot thank you enough for your generosity." - Philip R. Simms, Roadrunner High, Phoenix
